

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

EX quo tempore belli Gallici libros in lucem emisimus<sup>1)</sup>, complures codices Caesariani mihi innotuerunt, qui aut nondum a me inspecti erant aut prorsus latebant. Tribus igitur itineribus in Britanniam, Galliam, Italiam factis per singulos menses non solum belli Gallici codices excussi, sed etiam de bello ciuili commentarios ad optimos libros retractaui aut primus eos ita contuli, ut uix de ulla lectione supersit dubitatio. Solum codicem Masciacensem (*U*), quem quo minus ante hos XI annos absoluerem temporis angustiae impederant, intercedente Karolo Schenkl Vindobonensi fautore optimo Karolus Prinz, futurus Tychonii editor, dum Romae degit, accuratissime et liberalissime in meum usum contulit.

Codicem Treuericum (*V*) per Wilhelmum von Hartel, qua est liberalitate, in hac ipsa urbe conferre mihi licuit; de libri fati Alfredus Goeldlin von Tiefenau officiosissime certiozem me fecit.

Librum Louaniensem (*E*), quem in Belgis frustra quaesiueram, ante hos IIII fere annos Londinii inter additos museo Britannico codices repertum conlatumque fratrem germanum Bellouacensis (*D*) esse cognoui; unde, quantum fructus ad indagandum inter ordines  $\alpha$  et  $\beta$  conexum redundet, uix est quod lectorem moneam.

 prius est perfectum opus, quam intellegeretur ab Afranio

5 ex Afranianis interficiuntur T. Caecilius, primi pili centurio, 15

1 47. Sed haec eius diei praefertur opinio, ut se utrique  
2 superiores discessisse existimarent: Afraniani, quod cum esse  
omnium iudicio inferiores uiderentur, comminus tam diu ste-  
tissent et nostrorum impetum sustinuissent et initio locum  
tumulumque tenuissent, quae causa pugnandi fuerat, et no- 5  
3 stros primo congressu terga uertere coegissent; nostri autem,  
quod iniquo loco atque impari congressi numero quinque  
horis proelium sustinuissent, quod montem gladiis destitutus  
ascendissent, quod ex loco superiore terga uertere aduersarios  
4 coegissent atque in oppidum compulissent. illi eum tumulum, 10  
pro quo pugnatum est, magnis operibus munierunt et prae-  
sidium ibi posuerunt.

1 48. Accidit etiam repentinum incommodum biduo, quo  
haec gesta sunt. tanta enim tempestas cooritur, ut numquam  
2 illis locis maioribus aquas fuisse constaret. tum autem ex  
omnibus montibus niues proluit ac summas ripas fluminis  
superauit pontisque ambos, quos C. Fabius fecerat, uno die 5  
3 interruptit. quae res magnas difficultates exercitui Caesaris  
attulit. castra enim, ut supra demonstratum est, cum essent  
inter flumina duo, Sicorim et Cingam, spatio milium xxx,  
neutrum horum transiri poterat, necessarioque omnes his  
4 angustiis continebantur. neque ciuitates, quae ad Caesaris 10

multum a maturitate aberant, ac ciuitates exinanitae, quod Afranius paene omne frumentum ante Caesaris aduentum Ilerdam conuexerat, reliqui siquid fuerat, Caesar superioribus 6 diebus consumpserat; pecora, quod secundum poterat esse inope re subsidium, propter bellum finitimae ciuitates longius 20 7 remouerant. qui erant pabulandi aut frumentandi causa progressi, hos leuis armaturae Lusitani peritique earum regionum caetrati citerioris Hispaniae consectabantur; quibus erat proclive tranare flumen, quod consuetudo eorum omnium est, ut sine utrisq[ue] ad exercitum non eant. 25

1 49. 1 50. Haec permanserunt aquae dies complures. conatus est Caesar reficere pontes, sed nec magnitudo fluminis permittebat neque ad ripam dispositae cohortes aduersariorum 2 perfici patiebantur; quod illis prohibere erat facile cum ipsius fluminis natura atque aquae magnitudine, tum quod ex totis 5 3 ripis in unum atque angustum locum tela iaciebantur; atque erat difficile eodem tempore rapidissimo flumine opera perficere et tela uitare.

amicitiae Caesaris conciliare studebat. in his rebus fere erat Fufius occupatus.

- 1 55. [56.] Omnibus deinceps diebus Caesar exercitum in aciem aequum in locum produxit, si Pompeius proelio decertare uellet, ut paene castris Pompei legiones subiceret; tantumque a uallo eius prima acies aberat, uti ne telo tor-

- 1 57. Haec cum in Achaia atque apud Dyrrachium gere- rentur Scipionemque in Macedoniam uenisse constaret, non oblitus pristini instituti Caesar mittit ad eum <A.> Clodium, suum atque illius familiarem, quem ab illo traditum initio et commendatum in suorum necessariorum numero habere 5  
2 instituerat. huic dat litteras mandataque ad eum, quorum haec erat summa: sese omnia de pace expertum nihil adhuc <effecisse; id> arbitrari uitio factum eorum, quos esse auctores eius rei uoluisset, quod sua mandata perferre non oportuno  
3 tempore ad Pompeium uererentur. Scipionem ea esse aucto- 10 ritate, ut non solum libere, quae probasset, exponere, sed etiam ex magna parte compellare atque errantem regere posset; pr<a>eesse autem suo nomine exercitui, ut pr<a>eter auctori-  
4 tatem uires quoque ad coercendum haberet. quod si fecisset, quietem Italiae, pacem prouinciarum, salutem imperi[o] uni 15
